

March 8th, 2016

To whom it may concern:

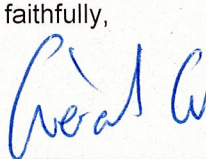

Inria is pleased to support the candidature of IGN (The French National Institute of Geographic and Forest Information) for organizing the XXIV ISPRS congress in France in 2020.

IGN has a track record of scientific events and conferences organized in various cities across France. In this respect, Inria strongly supports this application and is particularly enthusiastic about attending the ISPRS congress edition organized by IGN in the city of Nice, in France.

We sincerely hope that Nice will be chosen for the organization of this important scientific event and that Inria will contribute to its organization and outstanding success.

Should you need any further information about our interest, please do not hesitate to contact me.

Yours faithfully,

Gérard Giraudon
Director of Inria
Sophia Antipolis – Mediterranean Center
(France)
